Professional Summary

Frontend Developer with **3+ years of experience** in designing and developing **scalable, high-performance web applications**. Skilled in building **component-based UIs** and **modular frontend architectures** using **React.js, JavaScript, and modern frameworks**, while integrating with **REST APIs and secure backend services** powered by **Node.js** and **MySQL**.

Hands-on expertise in **frontend performance optimisation**, SEO uplift, and **responsive UI development** by translating Figma/Zeplin designs into **pixel-perfect interfaces**. Strong experience in creating **reusable components, form validations, campaign trackers, maps, and real-time features**, resulting in **20-40% faster delivery and performance improvements**.

Proficient in **Linux server management, AWS deployments, Git-based workflows, and CI/CD pipelines**, ensuring smooth **zero-downtime releases** across staging and production environments. Adept at fixing **security vulnerabilities (VAPT)** and implementing best practices for **authentication, session management, and secure headers**.

Collaborative team player experienced in **Agile/Scrum environments**, working closely with **backend, DevOps, QA, and design teams** to deliver end-to-end solutions. Experienced in **AMC (Annual Maintenance Contracts)**, handling **large-scale websites (200–1500+ pages)**, technical SEO audits, and post-launch optimization.

Passionate about **clean code, performance-focused development**, and **cross-functional collaboration**, with a proven track record of delivering **enterprise websites, financial platforms, e-commerce solutions, and corporate portals** for leading clients in banking, fintech, insurance, and education sectors.

Technical Skills

Frontend: React.js, JavaScript (ES6+), jQuery, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Design, Redux (basic)

Backend and API: Node.js (basic), PHP, MySQL, CRUD Operations, RESTful APIs, Form Validation

Tools & Platforms: Git, GitHub, GitLab, Bitbucket, VS Code, Figma, Zeplin, Chrome DevTools, Postman

DevOps & Deployment: cPanel, Linux Server Management, WinSCP, PuTTY, FTP, AWS (S3)

Security: VAPT Fixes, Cookie/Session Security, Server Banner Disclosure, CAPTCHA Integration, Rate Limiting

Professional Experience

Communequation Media Private Limited | Full Stack Developer

June 2025 – Present

- Developed and maintained custom webinar portals for Glenmark Pharmaceuticals using React.js frontend and Node.js REST APIs.
- Built attendee registration systems, webinar dashboards, live engagement modules, polls, feedback forms, and downloadable reports.
- Integrated MySQL database with secure API communication for real-time webinar data management and reporting.
- Implemented responsive React.js UI components for seamless user experience across desktop and mobile devices.
- Managed production deployments, Linux server configurations, AWS hosting operations, and application monitoring.
- Worked on webinar analytics, session tracking, attendance logging, and email communication workflows.
- Collaborated with cross-functional teams for requirement gathering, testing, deployment, and production support.
- Fixed security vulnerabilities, optimised application performance, and ensured smooth live webinar operations.

Key Projects

- **Glenmark Custom Webinar Portal** – Full-stack webinar management platform using React.js, Node.js, MySQL, AWS, and Linux server deployment.

Urja Communication | Frontend Developer

Oct 2022 – June 2025

- Led the revamp of SBM Bank website (200+ pages), delivering 40% faster page loads and 30% SEO uplift, improving overall Core Web Vitals.
- Developed reusable components and forms, integrated real-time features, and connected to REST APIs for seamless data flow with a MySQL backend.
- Maintained Linux server environments for staging and production using CLI, PuTTY, and WinSCP; executed AWS S3 bucket operations, zero-downtime deployments, and server-side optimisations.
- Implemented Git branching workflow for feature development, code reviews, and production deployment, ensuring collaborative version control.
- Built Google Maps Branch Locator, UTM campaign tracking, and CAPTCHA-secured forms to enhance user interaction and lead tracking.
- Worked closely with DevOps teams for AWS Linux deployments and regularly participated in Disaster Recovery (DR) drills to ensure high availability.
- Fixed 10+ VAPT vulnerabilities, including cookie/session misconfigurations and security headers.
- Managed AMC for Poonawalla Fincorp website (1500+ pages), including daily content updates, new feature rollouts, and live deployment support.
- Performed SEO audits using Screaming Frog, identified broken links, meta/redirect issues, and implemented technical fixes to enhance site health and visibility.

Key Projects

- [SBM Bank India](#) – Revamped 200+ page enterprise website, improving UI, performance, and frontend scalability.
- [Poonawalla Fincorp](#) – Contributed to the development and maintenance of a large-scale fintech platform by building responsive UI components and Feature development, AMC, MySQL API integrations.
- [Grihum Housing Finance Limited](#) – Built responsive and user-friendly financial service interfaces with cross-browser compatibility.
- [Urja Communications](#) – Corporate website deployment and maintenance.
- [Bookwallah](#) – NGO site support and SEO optimisation.

3 Minds Digital | Web Developer

Sep 2021 – Jul 2022 (Internship: Sep–Nov 2021)

- Developed and maintained 7+ client websites using HTML, CSS, and JavaScript while ensuring pixel-perfect implementation based on Zeplin designs.
- Created responsive layouts and reusable UI components following modern

frontend standards.

- Collaborated with Agile teams to deliver projects faster through reusable code structures.

Key Projects

- OnexTel – Corporate website with modern UI and API-driven features.
- Money Rabbit – FinTech case study site, integrated with responsive animations.
- Vasu Store – E-commerce store with reusable React components for product pages.
- Assurekit – Insurance-tech platform with API integration and dynamic dashboards.
- UpGrad – Education portal enhancements with React.js modules.
- 3 Minds Digital – Agency website with custom interactive features.

Education & Certifications

- Full Stack Development Course – Codemines Computer Academy (2026)
- The Complete Web Development Bootcamp – Udemy (2022)
- Bachelor of Commerce – University of Mumbai (2016)
